Announcements

Anonymous feedback for course development

You can submit any feedback regarding the modules in this feedback forum. There will be some course development work done during this fall, so all feedback is much appreciated.

Any feedback given here is anonymous, and not visible to other students.

If you would like to rant or discuss something related to the course with other students and the teachers, please use the general forum.

You can give feedback in this activity as many times as you like.

## General Course Information

Course schedule, Fall 2023

Passing the course and grading

What you need to know to pass the course and get a good grade

Frequently Asked Questions (FAQ)

Read this before posting questions

## Discussion

Course Q&A

Use this forum for general course-related questions. As an alternative, use our [Telegram group](#)

Any questions with respect to individual modules should be asked in the module-specific fora.

General discussion

Want to raise a point, tell us how great we are, or rant about something? This is the place for general discussion about the course.

## Additional Material

Essay tips (4 min)

Reference Material: The Software Engineering Body of Knowledge

Reference Material: IEEE Software Engineering Glossary

The "official" glossary of software engineering terminology.
